

REPORT TEMPLATE

TASK - 2

- **Mention Name or Email Id :** Y.VISHNU
- **Task Title :** Landing Page.
- **Task Description :** I have created the Landing page of an shoes store in that there are different type of shoe colours , model and the price of it .
- **Steps Taken :** First I have developed an html page the file name is proj2.html in the file I am extracting the css file the css file name is styl.css . Now in html page I kept the title for the landing page which I want to publish in the market .My title is SNEAKERS. I kept the limited offer for the sneakers and different brand of the shoes . I collected different photos to do this taks
- **Challenges Faced :** I felt interesting while I was developing the project and I felt some difficulties while keeping the heading text .
- **Solutions Implemented :** I have search for various resources to develop the project in different and interesting .
- **Learnings :** I learn from this task how to create the landing page for which we can introduce in the market easily & I have worked hard for this task 2 . I have learned a lot from this how to publish in new sneaker shoe brand & to fix the cost of the product & image for it
- **Project Update :** I have completed my Task – 2 early but while uploading in github I couldn't showing the output .
